# AUDI PUTERA MULIA

## FRONT-END DEVELOPER

2 years of experience on web applications solutions for diverse organizations. Skilled in developing and testing multiple web-based applications incorporating a range of technologies. Aspiring to combine broad background with strong technical skills to excel as a Front-End Developer

## Experience

### July 2021 ~ May 2022

SparkAmplify

#### Frontend developer intern

- Enhanced the drag and drop UI/UX to become smoother to use and make code readability simpler.
- Implement a pop-up form that can be designed by the user and can be auto-filled using the LinkedIn Autofill API.
- Implement a security function to make unauthorized users can't use the feature that they don't have access to.
- Helping backend engineers design or fix database models, controllers, and APIs.
- Reviewing and testing team's code to provide additional perspective and catch errors.

### August 2022 ~ Present

Funpodium

#### React developer

- Introduce and implement a typesafe api using zod library and react-query.
- Implement a prompt modal to warn user before leaving web page with unsaved changes.

## Project

### OMDB

- Creating and designing the website layout.
- Connecting an open API that returns a list of movies based on user input.
- Used React to allow users instantly update the interface without reloading.

### Timelog

- Creating a users tutorial page guide to show how to use timelog feature.
- Creating a stopwatch feature to provide a simple and more accurate activity time tracking.
- Creating animation effects on the website.
